CHAPTER 1 GENERAL

AIM

1. The aim of Gold Star is to provide an Army Cadet with the theoretical knowledge and practical experience required to participate in corps activities and appointments as a team leader.

PROGRAM DESIGN

2. The Gold Star Program has been designed:
- a. assuming that the majority of cadets undertaking Gold Star training are between 15 and 16 years of age;
 - b. assuming that the majority of cadets have successfully completed Silver Star;
 - c. using age-appropriate learning strategies;
 - d. using 30 minutes as a standard period of instruction;
 - e. by providing a programming mix consisting of mandatory and complementary training;
 - f. to include training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and
 - g. assuming that learning will take place through a combination of programmed periods of instruction, unstructured discussions, teachable moments, and coaching / mentoring opportunities.
3. Each Star Level is composed of performance objectives (POs) subdivided into enabling objectives (EOs).

PERFORMANCE OBJECTIVES

4. PO numbers are usually made up of three digits:
- a. The first digit indicates the star level (eg, 'X' represents Green Star to Gold Star, '1' represents Green Star, '2' represent Red Star, etc.).
 - b. The second and third digits indicate the topic area (eg, '00' represents Positive Social Relations for Youth, '01' represents Citizenship, '02' represents Community Service, etc.).
5. EO numbers are usually made up of six digits (eg, EO M103.01):
- a. The first digit is either an 'M', which indicates mandatory training, or a 'C', which indicates complementary training.
 - b. The second, third and fourth digits indicate the PO as per para 4.
 - c. The fifth and sixth digits indicate the specific EO number (eg, EO M103.01 is the first mandatory EO in Green Star leadership).
 - d. Some EOs have a seventh digit, which indicates there is a selection of EOs to choose from (eg, EOs MX01.01A, MX01.01B, MX01.01C, etc. indicates corps can choose any one of these EOs to satisfy the requirements of mandatory Citizenship training).
6. Each PO has been developed to contribute directly to the program aim and participant outcomes detailed in CATO 11-03, *Cadet Program Mandate*. The following are summaries of the POs common to all elements

of the CP (allocated POs numbered 400 to X20) and the POs specific to Gold Star (allocated POs numbered 422 to 426):

- a. **Positive Social Relations for Youth.** PO 400 – Participate in Positive Social Relations for Youth Training. The aim of Positive Social Relations for Youth is to prepare cadets to interact comfortably within the cadet community, interact positively with others, exercise sound judgement, accept personal responsibility for actions and choices, deal with interpersonal conflict, and seek assistance from available resources when needed.
- b. **Citizenship.** PO X01 – Participate in Citizenship Activities. The aim of this PO is to introduce cadets to various aspects of being a good Canadian citizen through a range of fun, interesting and challenging activities.
- c. **Community Service.** PO X02 – Perform Community Service. The aim of this PO is to encourage cadets to be active citizens through participation as a team leader in a local community service activity.
- d. **Leadership.** PO 403 – Act as a Team Leader. The aim of this PO is to provide cadets with knowledge and skills to practice team leadership during naturally occurring leadership opportunities.
- e. **Personal Fitness and Healthy Living.** PO X04 – Track Participation in Physical Activities. The aim of this PO is to encourage cadets to live a healthy, active lifestyle by meeting the *Canadian Physical Activity Guidelines* and *Canadian Sedentary Behaviour Guidelines* for youth.
- f. **Physical Activities.** PO X05 – Participate in Physical Activities. The aim of this PO is for cadets to have fun participating in physical activities.
- g. **Air Rifle Marksmanship.** PO 406 – Fire the Cadet Air Rifle During Recreational Marksmanship. The aim of this PO is to develop cadets' marksmanship abilities through participation in recreational marksmanship.
- h. **General Cadet Knowledge.** PO 407 – Serve in an Army Cadet Corps. The aim of this PO is to provide cadets with information on the opportunities inherent in the Army CP.
- i. **Drill.** PO 408 – Command a Platoon on Parade. The aim of this PO is to provide cadets with the knowledge and skills to act as a team leader while commanding a Platoon on parade.
- j. **Instructional Techniques.** PO 409 – Instruct a Lesson. The aim of this PO is to provide cadets with the knowledge and skills to instruct a 30-minute lesson.
- k. **CAF Familiarization.** PO X20 – Participate in Canadian Armed Forces (CAF) Familiarization Activities. The aim of this PO is to stimulate the interest of cadets in the sea, land and air activities of the CAF.
- l. **Navigation.** PO 422 – Follow a Multi-Leg Route Using a Global Positioning System (GPS) Receiver. The aim of this PO is to prepare cadets to follow a route using a GPS receiver.
- m. **Wilderness Survival.** PO 424 – Employ Natural Resources in a Survival Situation. The aim of this PO is to provide cadets with the knowledge and skills to use a knife to survive in the wilderness when immediate rescue is not assured.
- n. **Outdoor Leadership.** PO 425 – Develop an Expedition Plan. The aim of this PO is to provide cadets with a process to follow for planning an expedition.
- o. **Expedition. Expedition.** PO 426 – Perform Expedition Skills. The aim this PO is to have cadets draw together material from the topic areas of Field Training, Navigation, and Trekking with

dynamic transportation (two of: hiking / trekking, canoeing, mountain biking, snowshoeing or cross-country skiing) during a weekend expedition along a linear route.

TRAINING PREREQUISITES

7. To participate in Gold Star, youths must be members of an Army Cadet Corps, as specified in A-CR-CCP-950/PT-001, *Queen's Regulations and Orders for the Canadian Cadet Organization*, Article 4.01.

8. This QSP shall be used as the primary authority governing the development, implementation, conduct and evaluation of the training and standards to qualify a cadet as Gold Star. This QSP shall also be used by the Directorate Cadets and Junior Canadian Rangers as the primary reference for validation of Gold Star qualification training.

9. Gold Star shall be conducted using this QSP as the training control document in conjunction with A-CR-CCP-704/PF-001, *Royal Canadian Army Cadets Gold Star Instructional Guides*.

CHAPTER 2

TRAINING MANAGEMENT DETAILS

RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS

1. The Managing Authority for the Army Cadet Star Level Program is D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:

- a. Royal Canadian Army Cadet Corps (RCACC); and
- b. Technical TEs, such as:
 - (1) Expedition Centres; and
 - (2) Other zone, detachment or regional TEs as authorized by RCSU Commanding Officers (CO).

TRAINING DETAILS

2. In accordance with CATO 11-04, *Cadet Program Outline*, and CATO 40-01, *Army Cadet Program Outline*, the Star Level Program is conducted between 1 September and 30 June of each training year through a combination of 30 training sessions and 10 supported training days as detailed in Annex A.

3. The Star Level Program is divided into two compulsory components that must be completed by all cadets. These components are:

- a. **Mandatory Training.** Mandatory training is a scheme of activities that is requisite for corps, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Star Level Program; and
- b. **Complementary Training.** Complementary training is a scheme of activities that is requisite for corps, and in some instances specialized TEs, to conduct and for cadets to accomplish in order to complete the Star Level Program. These activities complement mandatory activities and form an integral part of the Star Level Program. COs have the discretion to choose activities from a range of possibilities, thus allowing them flexibility to tailor the Star Level Program to match the corps' interests and resources.

4. **Period Allocation.** Periods are 30 minutes in duration with some periods allocated to be delivered during training days / weekends. A detailed period allocation, including details on training days / weekend, is provided at Annex A, and scheduling guidelines are located at Annex B.

5. Training Days / Weekends.

- a. The planning and conduct of training days is the responsibility of the corps. Day training shall be conducted at the corps parade location or, where suitable facilities do not exist at the corps parade location, within the local community.
- b. The conduct of expedition training is normally the responsibility of Technical TEs (Expedition Centres). The planning of these activities is to be done in conjunction with the Area Cadet Detachment / RCSU and RCSS / Expedition Centre.
- c. In accordance with CATO 11-04, *Cadet Program Outline*, weekend training shall normally be conducted within three hundred kilometres of the corps parade location.

- d. Where support of mandatory or complementary days / weekends is required, requests shall be forwarded to the appropriate RCSU. Refer to CATO 40-01, *Army Cadet Program Outline*, and regional orders for amplified information on support available from RCSUs.
- e. Training days and weekends shall be structured, unless otherwise specified in the individual Star QSP, to include cadets from all levels of the Star Level Program.

6. **Training Capacity.** The training capacity is limited to the ability of the corps to meet supervision requirements in accordance with CATO 13-12, *Supervision of Cadets*, and in some cases, to established quotas.

7. **Training Staff Requirements.**

- a. Corps Training Officer (Trg O):

RANK	MOSID	NUMBER	QUALIFICATION
Capt	00232-02	1	Minimum: Captain Qualification; or CIC Intermediate Officer Qualification Preferred: CIC Training Officer (Corps / Squadron) Qualification; and CIC Occupational Specialty Senior Instructor Qualification

- b. Gold Star Course Officer (Gold Star Crse O):

RANK	MOSID	NUMBER	QUALIFICATION
2Lt / Lt	00232-02	1	Minimum: Basic Officer Qualification; or CIC Basic Military Officer Qualification and Basic Military Occupational Qualification Preferred: Military Occupation Course (Army); or CIC Basic Military Officer Qualification (Army)

Note: This position may also be filled by an OCdt, should circumstances warrant.

- c. Instructors:

RANK	MOSID	NUMBER	QUALIFICATION
Cadet WO and above	N/A	1 per 10 cadets	Minimum: Completion of the Gold Star Program

RANK	MOSID	NUMBER	QUALIFICATION
			Preferred: CSTC specialties appropriate for activity requirements (eg, Air Rifle Marksmanship Instructor for marksmanship instruction).

8. **Technical Specialists.** The number of technical specialists required is influenced by policy documentation specific to the activity (eg, CATOs, Water Safety Orders, Adventure Training Safety Standards, etc.) and by local circumstances. It is recommended that cadet specialist instructors be used in the delivery of specialty training where practical. The technical specialists that could support Gold Star are:

- a. Required Specialist Instructors:
 - (1) Unit Cadet Conflict Management Advisor (UCCMA) to coordinate training delivery and learning reinforcement for PO 400;
 - (2) Range Safety Officer (RSO) in support of POs 406 and 311; and
 - (3) Cold Weather Instructor in support of PO 121; and
- b. Possible Cadet Specialist Instructors:
 - (1) Fitness and Sports Instructor(s) as available in support of POs X04 and X05;
 - (2) Air Rifle Marksmanship Instructor(s) as available in support of POs 406 and X11;
 - (3) Drill and Ceremonial Instructor(s) as available in support of PO 408; and
 - (4) Expedition Instructor(s) as available in support of POs 421, 422, and 423.
- c. guest speaker(s) as required.

9. **Resource Requirements.** RCSU COs are responsible for ensuring that required equipment and supplies are available. A list of material required to conduct the training is located at Chapter 2, Annex C.

TRAINING ADMINISTRATION

10. **Cadet Evaluation.** Details on cadet evaluation are found in Chapter 3.

11. **Reports.** A training file should be maintained on each cadet to record their progress during the training year. The training file should consist, as a minimum, of a Gold Star Qualification Record (Chapter 3, Annex B). Training files are temporary documents which may be disposed of upon migration of the Gold Star Qualification Record to DND 2399, *Cadet Personnel Record*.

QUALIFICATION

12. The Gold Star qualification is awarded to cadets upon completion of the requirements specified in Chapter 3.

RELATED DOCUMENTS

13. This QSP is to be used in conjunction with:

Each expedition centre may adjust this allocation to reflect the choice of activities, facilities and available resources at the expedition centre.

Note 2: Two activities shall be selected from the five listed as EO M426.02.

CONDUCT OF EXPEDITION EXERCISE

1. This annex is intended as amplification to Chapter 4 to provide guidance to the conduct of PO 426 (Perform Expedition Skills).
2. Expedition centre training has been designed to provide the Gold Star cadet with the opportunity to further develop expedition skills learned during Silver Star expedition training, in a structured environment under the supervision and instruction of highly-qualified staff. The expedition centre will approach training through an experiential approach, which will allow the cadet to continue the development of skills such as mountain biking and canoeing through direct experience at a personal level. Each cadet will be given the opportunity to examine what they saw, felt and thought during the weekend and consider how it may relate to future experiences.
3. Corps will be required to provide each cadet attending an expedition centre with a briefing concerning their participation in the activities at the centre. The information required to be presented is included in EO M426.01 (Prepare for Expedition Training) and the specific expedition centre joining instructions. Corps training officers are advised to schedule this EO a minimum of two weeks prior to the cadet attending the expedition centre, to provide the cadets with enough time to fully prepare for their participation in the activities. During this EO, the cadet will be provided with a Navigation Review Package which shall be completed and brought to the expedition centre. It is advised that corps take the time to review the Navigation Review Package with the cadet and ensure they can complete all skills included. The purpose of this package is to allow the cadet to practice the navigational skills which they will perform while at the expedition centre and to provide expedition centre staff with a means of tailoring a navigation review once the cadet has arrived at the expedition centre.
4. Expedition centres, under direction from regional trainers, will select at least two modes of travel. When selecting a mode of travel, expedition centres must ensure that pre-training requirements, as detailed in A-CR-CCP-951/PT-002, *Royal Canadian Army Cadet Adventure Training Safety Standards*, are adhered to. Modes of travel shall be selected from the following list:
 - a. EO M426.02a (Paddle a Canoe) 9 periods,
 - b. EO M426.02b (Ride a Mountain Bike) 9 periods,
 - c. EO M426.02c (Hike Along a Route) 9 periods,
 - d. EO M426.02d (Snowshoe Along a Route) 9 periods, or
 - e. EO M426.02e (Ski Along a Route) 9 periods.
5. The following are the training expectations for each dynamic mode of travel:
 - a. **Canoeing.** The cadet shall paddle a tandem canoe, in the bow and the stern, on flatwater for a distance of 15–20 km during an expedition.
 - b. **Mountain Biking.** The cadet shall ride a mountain bike on familiarization / intermediate mountain bike trails for a distance of 40–50 km during an expedition.
 - c. **Hiking.** The cadet shall hike, carrying their personal equipment in an expedition field pack, along a route consisting of a combination of Class 1, 2 and 3 terrain for a distance of 10–15 km during an expedition.
 - d. **Snowshoeing.** The cadet shall snowshoe, carrying their personal equipment in an expedition field pack, along a route for a distance of 8–10 km during an expedition.
 - e. **Skiing.** The cadet shall cross-country ski, carrying their personal equipment in an expedition field pack, along a route consisting of groomed / non-groomed trails for a distance of 6–10 km during an expedition.

6. A schedule has been included to provide the expedition centre with a sample format to follow for the weekend. The period count, 9 per mode of travel, is an estimate that conforms to the standard eighteen periods allocated to a training weekend. The expedition centre may choose to adjust this allocation to reflect the choice of activities, facilities and available resources. When developing a training schedule, expedition centres may choose to incorporate additional Army Cadet Adventure Training Activities (ACATA), as outlined in A-CR-CCP-951/PT-002, *Royal Canadian Army Cadet Adventure Training Safety Standards*, as long as this does not impede the cadets' abilities to meet mandatory training requirements.

7. Expedition centres will be required to schedule appropriate time on the Friday evening to prepare the cadet for the expedition. Expedition centre staff may use this time to address the following:

- a. campsite set-up,
- b. personal equipment issue,
- c. navigation review,
- d. pack an expedition pack review,
- e. expedition daily routine review,
- f. expedition briefing,
- g. assessment overview, and / or
- h. cold weather camping introduction, if applicable.

8. Based on Fortress data, cadets will be placed into expedition teams of no more than six upon arrival on Friday evening. All training will be conducted in small teams. Each expedition team will be assigned an expedition centre Team Instructor (TI). Depending on expedition staff availability, an experienced TI may be assigned to a maximum of two expedition teams. These team sizes take into account instructor / cadet training ratios, but not the requisite instructor qualifications for the adventure training activities being conducted.

9. A TI will have two functions at the expedition centre. Prior to the commencement of the expedition, at the campsite on Saturday evening and upon completion of the expedition, the TI will be responsible for all details pertaining to the preparation, support, administration, assessment and supervision of their respective team(s). During the actual conduct of the expedition the TI will not travel directly with their expedition team(s) but will monitor the progress of the team(s) as they travel along the expedition route and provide instruction, supervision and assessment of the cadets. TIs will remain within sight or sound of teams as they travel along the expedition route.

10. In order to provide the cadet with the maximum amount of time to develop their expedition skills it is recommended that all skill instruction be conducted along the expedition route. Ideally, the modes of travel selected for the Gold Star expedition should allow for a continuation of learning from the Silver Star expedition. This will allow cadets to build on previously learned skills with the addition of some advanced techniques.

11. When following an experiential education approach, being aware of teachable moments is very important. A teachable moment is a situation that naturally arises during the course of the day and provides opportunity for discussion. These moments will reinforce both expedition and corps program material and should be taken advantage of throughout the expedition. Expedition centre staff should take the time to explain and emphasize program material as opportunity arises. Some of these teachable moments could include:

- a. Leave No Trace,
- b. foot care,

- c. basic astronomy,
- d. wildlife,
- e. predicting weather,
- f. campsite routine,
- g. use of expedition equipment,
- h. equipment repairs,
- i. navigation without a map or compass, and
- j. edible and medicinal plants, etc.

1500	Debrief	All cadets will be required to fill out an expedition centre activity critique. Cadets will be briefed on future expedition training opportunities.
1530	Depart	

Note 1: TIs must monitor their teams as they complete morning routine. They should use this time to provide feedback / suggestions on packing, establishing a cooking area, collecting garbage, cleaning-up, tearing down tents, packing equipment, etc

Note 2: Timings for each mode of travel during the expedition will vary depending on the type selected. While there may be some instances where there is a requirement for training, the focus should be on having the cadets complete the training during the conduct of the expedition along the expedition route.

Note 3: The completion of all preparatory navigation work by each team member prior to the expedition team leaving the start point should spread out the teams along the expedition route. If required, expedition staff can stagger the start of teams to ensure that teams are not simply following each other along the expedition route.

Note 4: During the expedition each cadet will be required to lead / navigate one leg of the route. All cadets will be assigned their leg prior to the commencement of the expedition. Cadets will be required to complete all navigation work prior to their expedition team leaving the start point. TIs will check all cadets' work and ensure that they have the correct answers.

Note 5: Meals will occur at pre-determined locations. The Log O will deliver the rations and equipment required for meals to the pre-determined location. Expedition teams will be required to prepare their own meals and complete all associated clean-up.

Note 6: Other ACATA can be incorporated into the expedition route. For example: during the hiking route cadets may be given the opportunity to move through a series of caves or abseil down a rock face; or incorporating a trail hike in with canoeing and mountain biking to move the cadets from one location to the next. Flexibility is provided as long as the primary objectives of the two selected modes of travel are met

Note 7: Expedition centres may choose to organize their expedition route so that cadets participate in a new mode of travel on each day of the expedition.

Note 8: Evening activities shall be provided and could be comprised of: navigation review, team-building games, introduction to next day's activities, etc.

Note 9: The expedition end time will differ for each expedition centre.

ANNEX B SCHEDULING GUIDELINES

1. Schedule those activities that are set dates (eg, Remembrance Day activities, Regionally Directed Activities, TE activities [eg, sailing], School Breaks).
2. Schedule major and recurring activities (eg, PO X05 [Physical Activities], CO's Parades, Annual Ceremonial Review).
3. Schedule the following training activities early in the training year:
 - a. PO 100 (Positive Social Relations for Youth),
 - b. POs 107, 207, 307, 407 and 507 (General Cadet Knowledge),
 - c. POs 303, 403 and 503 (Leadership), and
 - d. POs 309 and 409 (Instructional Techniques).
4. Schedule any special considerations, such as:
 - a. Schedule EO MX04.02 (Identify Strategies to Improve Participation in Physical Activities and Participate in the Cadet Fitness Assessment) four weeks after EO MX04.01 (Participate in 60 Minutes of Moderate- to Vigorous-Intensity Physical Activity and Track Participation in Physical Activities);
 - b. Schedule PO 424 and 426 required lessons prior to the weekend Bivouac Exercise;
 - c. For the completion of POs 303, 403, and 503 (Leadership), consider leadership assignment opportunities for Silver Star, Gold Star and Master Cadets; leadership appointment opportunities for Gold Star and Master Cadets; and leadership project opportunities for Master Cadets; and
 - d. Schedule each Gold Star cadet into the Green Star and Red Star training schedules in order to complete EO M409.05 (Instruct a 30-Minute Lesson).

6. Schedule selected complementary training.
7. Other considerations when developing the annual training schedule include:
 - a. the training environment required for each activity:
 - (1) some activities will require an outdoor environment which requires consideration for seasonal climate; and
 - (2) some activities will require the use of a special facility, such as a gymnasium or sports field; and
 - b. the availability of a technical specialist, if required to conduct the activity;
8. Considerations when implementing the training program:
 - a. Some theory is required for safety purposes and for introducing new material. However, most material can be taught using practical methods.
 - b. Training sessions need to be planned in advance to allow instructors adequate time to prepare for the delivery and conduct of training. This includes reviewing lesson specifications and instructional guides, and creating instructional materials as required.

- c. Take adequate time to allow cadets to reflect upon and be debriefed on experiential training activities, to include future applications of the experience.

CHAPTER 3

CADET EVALUATION

PURPOSE

1. This chapter outlines the evaluation requirements for achievement of Gold Star qualification.

LEARNER EVALUATION

2. During Gold Star, a combination of formative and summative evaluation will be used to track cadets' progress.
3. Formative evaluation, or assessment **for** learning, takes place during a phase of instruction and helps cadets and instructors recognize cadets' progress or difficulties in learning. Through formative evaluation, the instructor can: identify when corrective or remedial action is required, plan the next steps in instruction, provide cadets with feedback so they can improve, and reinforce learning to aid the cadet in retaining information. Formative evaluation may also include opportunities for cadets to practice using Performance Checks (PCs) employed in summative evaluation.
4. Summative evaluation, or assessment **of** learning, takes place to determine whether learners have achieved POs or critical EOs (those deemed prerequisites to further individual training and education) and is used at the end of a phase of instruction. Details for assessment of learning are located within this chapter.

CADET EVALUATION DESIGN AND DEVELOPMENT

5. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the Canadian Cadet Organizations (CCO).
6. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EOs. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.
7. The following fundamental assessment principles shall guide the conduct of Gold Star assessment activities:
 - a. in advance of training, the instructor shall inform the cadet of POs and EOs associated with the qualification;
 - b. in advance of training, the instructor shall inform the cadet of the assessment plan for the qualification and provide the cadet with an opportunity to review the applicable forms used in assessment;
 - c. assessment information shall be shared between the instructor and the cadet and used to revise and guide instruction and learning;
 - d. the instructor shall provide feedback that is descriptive, constructive, frequent, and timely; helping the cadet to identify strengths and address areas requiring improvement;
 - e. the cadet shall be actively, consistently and effectively involved in assessment; including learning to manage their own learning through the skills of self-assessment; and
 - f. the cadet shall be encouraged to actively, consistently and effectively communicate with others about their learning progress.

CP DEVELOPMENTAL PERIODS (DPs)

8. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.

9. A DP is a time frame, during a cadet's progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aims of the CP and contribute to the achievement of the CP outcomes.

10. Progressive training levels, and associated learning objectives, distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.

11. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Chapter 3, Annex A.

CADET ASSESSMENT OF LEARNING PLAN

12. The Assessment of Learning Plan located at Chapter 3, Annex B, provides an overall strategy for using assessment activities to determine if the cadet meets the requirements for Gold Star qualification. The assessment of learning plan will:

- a. provide an outline of each assessment of learning activity including its purpose, when it will occur, and details the assessment instrument(s) used to support cadet evaluation;
- b. identify the learning target(s) associated with the PO and / or EO being assessed, to include:
 - (1) **Knowledge Mastery.** The facts, concepts and theory a cadet needs to know;
 - (2) **Reasoning Proficiency.** A cadet uses what they know to solve a problem, make a decision, make a plan, think critically, set goals, or self-assess;
 - (3) **Skills.** Performance demonstration; where the cadet demonstrates their ability to perform a skill. To be assessed, these performances must be demonstrated by the cadet and observed by an assessor;
 - (4) **Ability to Create Products.** A cadet uses their knowledge, reasoning and skills to create a concrete product; and / or
 - (5) **Attitudinal / Dispositional Changes.** A cadet's attitude about learning, safety, conducts, etc. Targets in this realm reflect attitude and feeling. They represent important affective goals we hold for a cadet as a by-product of their CP experience, and as such are not generally assessed for the purpose of attaining a qualification.
- c. identify the assessment method(s) that best matches PO and / or EO learning targets, to include:
 - (1) **Selected Response.** A cadet selects the correct or best response from a list provided. Formats include multiple choice, true / false, matching, short answer, and fill-in questions. Although short answer and fill-in-the-blank questions do require cadets to generate an answer, they call for a very brief answer that is counted as right or wrong, so these have been included in the selected response category;

- (2) **Extended Written Response.** A cadet is required to construct a written answer in response to a question or task rather than select one from a list. An extended written response is one that is at least several sentences in length;
- (3) **Performance Assessment.** This assessment method is based on observation and judgment; the performance or product is observed and determination is made as to its quality; and / or
- (4) **Personal Communication.** Gathering information about a cadet through personal communication, learning is assessed through interpersonal interaction with the cadet.

ASSESSMENT INSTRUMENTS

13. Specific assessment instruments have been designed to support each assessment activity within the assessment of learning plan. These are meant to standardize assessment activities and cadet evaluation for all cadets attempting the qualification. Assessment instruments are located at Chapter 3, Annex B.

MONITORING CADET PROGRESS

14. Cadets must meet the standard of behaviour and conduct expected from all cadets. During cadet interviews and personal counselling, the Gold Star Course Officer should adopt a proactive approach towards difficulties.

15. The Gold Star Course Officer should meet formally and informally with cadets throughout the training year to discuss the cadet's progress towards Gold Star qualification (assessment for learning) and to provide feedback on overall performance. The Gold Star Course Officer shall meet with each cadet at the end of the training year to review the completed *Gold Star Qualification Record*. Guidelines for conducting cadet interviews are located at Chapter 3, Annex D.

16. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard for Gold Star qualification must be addressed in accordance with CATO 15-22, *Conduct and Discipline – Cadets*.

TRAINING COUNSELLING SESSION

17. A training counselling session is used when a cadet is having difficulties progressing and an intervention is required to set goals for corrective action and / or remedial instruction. The Trg O is responsible for conducting training counselling sessions, except in the case of cadet rank promotions for which the CO is responsible. Guidelines for conducting training counselling sessions are located at Annex E and the Training Counselling Session Form is located at Annex E, Appendix 1.

ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES

18. No additional cadet evaluations, eg, theory tests or performance checks, are to be used to determine Gold Star qualification eligibility. Therefore, these national standards are not to be supplemented with additional regional and / or local standards.

GOLD STAR QUALIFICATION STANDARD

19. The minimum standard for Gold Star qualification is:
- a. 60 percent overall attendance in all scheduled mandatory and complementary training as calculated by the corps; and
 - b. successful completion of each PO as outlined in the Gold Star Qualification Record located at Chapter 3, Annex C.

CADETS NOT MEETING THE QUALIFICATION STANDARD

20. A cadet who does not meet the qualification standard for any PO shall be given a reasonable opportunity to achieve the standard. Unless otherwise specified in the assessment of learning plan and associated assessment instruments, there is no limit to the number of additional opportunities that may be afforded to the cadet, provided it is within the resources of the corps. If, by the end of the training year, a cadet who is Gold Star qualified has not successfully attained any PO, the corps CO may waive the minimum qualification standard. When waiving any PO requirement, the corps CO shall consider:

- a. the legitimacy of the cadet's reason for failing to attain the PO;
- b. the cadet's mandatory and complementary training attendance; and
- c. the cadet's overall behaviour and performance.

21. Any cadet for whom a waiver has been issued will not be granted the Gold Star qualification. However, that cadet will progress to Master Cadet in the fifth year of their corps membership. If a CO does not grant a cadet a waiver, that cadet may be held back to repeat Gold Star.

22. Cadets who have been granted a waiver of the qualification standard of Gold Star and have progressed to Master Cadet in the fifth year of their corps membership are expected to achieve the missing Gold Star PO requirements. To facilitate this, cadets may concurrently receive credit for activities completed in Gold Star as part of also achieving Master Cadet.

23. Only cadets who have achieved Silver Star qualification may be granted a waiver.

RECORDING AND REPORTING CADET ACHIEVEMENT

24. The progress of each cadet shall be recorded on the Gold Star Qualification Record, located at Chapter 3, Annex C, which is also used to determine successful completion of Gold Star qualification. COs are responsible for ensuring the results are recorded on each cadet's DND 2399, *Cadet Personnel Record*.

GOLD STAR CERTIFICATE OF QUALIFICATION

25. The CF 558, *Cadet Certificate of Qualification* (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of the Gold Star qualification.

Leadership Assignment. The cadet shall be given a minimum of one practice leadership assignment which will be assessed using the 403 PC Assessment Rubric – Leadership Assignment. The cadet will reflect and self-assess after the practice leadership assignment using the same rubric. The formal leadership assignment will be given and assessed using the same rubric.

Leadership Appointment. The formal leadership appointment will be given and assessed using the 403 PC Assessment Rubric – Leadership Appointment. The cadet will reflect and self-assess after the leadership appointment using the same rubric. The leadership appointment assessment shall be recorded on the cadet's qualification record.

Photocopy the 403 PC Assessment Checklists.

PRE-ASSESSMENT ASSIGNMENT

The cadet shall review the 403 PC Assessment Rubrics and Checklists and become familiar with the assessment criteria.

ASSESSMENT METHOD

Performance assessment and personal communication were chosen as it allows the assessor to observe the cadet's ability to perform the required skill(s) and make a judgment on the quality of performance.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's ability to lead cadets through a leadership assignment and appointment.

RESOURCES

ASSESSMENT ACTIVITY INSTRUCTIONS – LEADERSHIP ASSIGNMENT

1. Communicate to the cadet their leadership assignment either verbally or in writing.
2. Ensure the cadet understands the leadership assignment.
3. Have the cadet conduct the leadership assignment.
4. Using the Assessment Rubrics as a guide, make notes of observations and record results on the corresponding Assessment Checklist.

The assessment of leadership abilities is subjective; however, the assessor's responsibility is to be as positive as possible.

5. Have the cadet assess their performance using the Assessment Rubric. Ensure the cadet understands their self-assessment will not be recorded on their qualification record.

Following each assessment, ask the cadet what they felt went right during the leadership assessment, what did not go well and ask the cadet how they would improve their performance if the leadership assignment or appointment was given to them again.

Discuss the performance results of each section of the Assessment Rubric with the cadet.

Discuss the overall performance results with the cadet and provide the cadet with a copy of the completed Assessment Checklists.

Because of the duration and overall nature of the leadership appointment, feedback needs to be provided on an ongoing basis. Additional time will also need to be scheduled upon the conclusion of the appointment for final feedback.

ASSESSMENT INSTRUCTIONS

GENERAL

No time is allotted for this PC, as it is to be administered whenever the cadet hands in their completed Physical Activity Tracker.

- Vigorous-intensity physical activities will cause teens to sweat and be 'out of breath' (eg, running or rollerblading).

CONDUCT OF ASSESSMENT

1. Have the cadet complete their Physical Activity Tracker and meet with them as required to deal with any difficulties that may arise. Make notes of observations.
2. Once the cadet has completed the Physical Activity Tracker, evaluate their performance using the assessment form.
3. Conduct a debriefing. Ask the cadet what they felt went well and what they would improve upon if the assessment was given to them again.
4. Discuss the overall performance results with the cadet and provide the cadet with a copy of the completed 404 PC Personal Fitness and Healthy Living Assessment Form.

POST ASSESSMENT INSTRUCTIONS

1. Place a copy of the 404 PC Personal Fitness and Healthy Living Assessment Form in the cadet's training file.

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and 422 PC Assessment Checklist and become familiar with the material prior to conducting the assessment.

Photocopy the 422 PC Assessment Checklist for each cadet.

Prepare a navigational route of three legs (four points of interest [POIs] including the start point) for each cadet in each group of three. The route chosen for each cadet should be no more than 2 km.

Ensure the global positioning system (GPS) receivers have fully-charged batteries.

PRE-ASSESSMENT ASSIGNMENT

Have the cadet review the assessment activity instructions and the 422 PC Assessment Checklist to become familiar with the material prior to participating in the assessment.

ASSESSMENT METHOD

- **Incomplete.** The skill was not attempted or not completed even with assistance.
- **Completed With Difficulty.** The skill was completed with difficulty / assistance.
- **Completed Without Difficulty.** The skill was completed without difficulty / assistance.

Make notes of observations for the purpose of providing descriptive post-assessment feedback.

ASSESSMENT ACTIVITY INSTRUCTIONS

1. Divide the cadets into groups of no more than three (or divide based on the number of available GPS receivers).
2. Have one cadet in the group input the four POIs.
3. Have the cadet link the POIs to establish a multi-leg route in the GPS receiver.
4. Have the cadet lead and navigate the group to each POI along the route.

ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and 424 PC Assessment Checklist and become familiar with the material prior to conducting the assessment.

Photocopy the 424 PC Assessment Checklist for each cadet.

Obtain all resources for the assessment.

PRE-ASSESSMENT ASSIGNMENT

Have the cadet review the assessment activity instructions and the 424 PC Assessment Checklist to become familiar with the material prior to participating in the assessment.

ASSESSMENT METHOD

Performance assessment was chosen to observe the cadet performing the required skills to weave cordage and make a judgment on the quality of the performance.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's ability to weave cordage.

RESOURCES

- 424 PC Assessment Checklist, and
- Survival knife.

ASSESSMENT ACTIVITY LAYOUT

This assessment will be conducted during EO M424.03 (Weave Cordage) in the field during bivouac FTX in a controlled setting during daylight hours.

Select an area where the natural resources required to weave cordage are found.

Cadets may be provided assistance (eg, reminders, guided questions).

After observing each skill being performed, make a judgment and indicate (with a check mark in the applicable box) on the Assessment Checklist whether the skill was:

- **Incomplete.** The skill was not attempted or not completed even with assistance.
- **Completed With Difficulty.** The skill was completed with difficulty / assistance.
- **Completed Without Difficulty.** The skill was completed without difficulty / assistance.

Make notes of observations for the purpose of providing descriptive post-assessment feedback.

To ensure a safe environment, cadets shall be afforded only two safety-related warnings. On the third warning for a similar incident they shall be assessed as 'incomplete' on the PC and a note shall be made in the feedback section. Warnings shall be issued for significant failure to adhere to the safety principles taught in the EOs. When a warning is given, the instructor shall clearly identify what the cadet has done incorrectly, what steps they need to take to correct the error, and what action they should take in the future to avoid the error.

ASSESSMENT ACTIVITY INSTRUCTIONS

The instructor will be required to observe the cadets during the practical activities associated with EO M424.03 (Weave Cordage) and use the checklist to monitor their performance. This PC may be ongoing throughout the bivouac FTX.

As the PC deals with progressive skill development, the practice of limiting the number of attempts a cadet has to complete the PC does not apply. Attempts, however, are limited based on available time during the weekend bivouac FTX.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

1. Indicate the overall performance assessment on the assessment checklist as:
 - a. **Incomplete.** The cadet has not achieved the performance standard by not completing at least one of the required objectives;

426 PC
ASSESSMENT INSTRUCTIONS

PRÉPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and Assessment Checklist and become familiar with the material prior to conducting the assessment.

Photocopy for each cadet the 426 PC Assessment Checklist.

Obtain all resources required for the assessment.

PRE-ASSESSMENT ASSIGNMENT

Have the cadet review the assessment activity instructions and the Assessment Checklist to become familiar with the material prior to participating in the assessment. This review will be conducted by the expedition staff at the Expedition Centre upon the cadets' arrival.

ASSESSMENT METHOD

Performance assessment was chosen to observe the cadet's performing the required skills and make a judgment on the quality of the performance.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's ability to perform expedition skills.

RESOURCES

- 426 PC Assessment Checklist,
- Topographical / trail map of area,
- Selected (2) modes of travel-specific equipment,
- Personal expedition equipment, and
- Group expedition equipment.

ASSESSMENT ACTIVITY LAYOUT

The assessment will be conducted at the expedition centre during daylight hours.

All activities will be conducted IAW A-CR-CCP-951/PT-002.

The two selected modes of travel will be conducted during favourable weather under the following conditions:

- Canoeing assessment will be on flat water.
- Mountain biking assessment will be on familiarization / intermediate mountain bike trails.
- Hiking assessment will be on Class 3 hiking terrain.

- Snowshoeing assessment will be along a route.
- Skiing assessment will be along a level 2 route.

ASSESSMENT ACTIVITY INSTRUCTIONS

The cadets may be provided assistance (eg, reminders, guided questions).

The assessment tool for 426 PC assesses the cadet's performance in the following areas: general expedition skills, canoeing, mountain biking, hiking, skiing, and snowshoeing.

Only two of the five modes of travel will be assessed. For this reason, 12 skills (Four general expedition skills and four technical skills per mode of travel) will be assessed. The modes of travel not used will not be assessed. Therefore those sections of the assessment checklist will be left blank.

After observing each skill being performed, make the judgment and indicate (with a check mark in the applicable box) on the Assessment Checklist whether the skill was:

- **Incomplete.** Over the course of the expedition, the skill was not attempted and / or not completed once even with assistance;
- **Completed with difficulty.** The skill was completed with some difficulty and / or required significant assistance from the assessor; or
- **Completed without difficulty.** The skill was completed without difficulty or with minimal assistance from the assessor.

Notes of observance may be written for the purpose of providing post-assessment descriptive feedback.

To ensure a safe environment, cadets shall be afforded only two safety-related warnings during the Silver Star Expedition, on the third warning for a similar incident they shall be assessed as incomplete on the PO and a note shall be made in the feedback section. Warnings shall be issued for significant failure to adhere to the safety principles taught in the EOs. When a warning is given, the instructor shall clearly identify what the cadet has done incorrectly, what steps they need to take to correct the error, and what action they should take in the future to avoid the error.

The assessor will be required to observe the cadets in their team during the conduct of the practical expedition activity and use the Assessment Checklist found in this appendix to monitor their performance.

As the PC is ongoing and deals with progressive skill development, the practice of limiting the number of attempts a cadet has to complete the PC does not apply. Attempts, however, are limited based on available time during the expedition training weekend.

Should a cadet's lack of progress be significant enough after multiple opportunities, the processes found in Chapter 3, Annex E, Training Counselling Session, shall be followed.

In the case of inclement weather limiting some aspects of assessment, a RCSU may grant a baseline proficiency based on incomplete observations. However, such circumstances must be recorded in the overall feedback section.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

1. Indicate the overall performance assessment as:
 - a. **Incomplete.** If any of the 12 assessed skills were incomplete;
 - b. **Completed with difficulty.** If one to seven of the 12 assessed skills were completed without difficulty;
 - c. **Completed without difficulty.** If eight to eleven of the 12 assessed skills were completed without difficulty; or
 - d. **Exceeded standard.** If all 12 assessed skills were completed without difficulty.
2. Sign and date the Assessment Checklist. This should be done by the expedition OC.
3. Forward completed Assessment Checklist to the cadet's home unit.
4. Ensure a copy of the Assessment Checklist is attached to the cadet's training file.
5. The overall result will be recorded on the Gold Star Qualification Record located at Annex C.

PROVIDING ASSESSMENT FEEDBACK

As this PC is ongoing, feedback should be provided to the cadets on a regular basis to inform them of their progress. This is accomplished through direct / immediate feedback during the practical expedition activity, group debriefings at the end of the training day and one-on-one interviews as required.

Discuss the performance results of each section of the Assessment Checklist and the overall performance results.

CHAPTER 4
PERFORMANCE OBJECTIVES AND TRAINING PLAN
SECTION 1
PERFORMANCE OBJECTIVES (POs) AND TRAINING PLAN

PURPOSE

1. The purpose of this chapter is to outline the specific POs associated with the Gold Star qualification.

PERFORMANCE OBJECTIVES

2. POs are a description of the cadet's ability after training is complete. They include a description, in performance terms, of what the individual must do, the conditions under which the performance must be completed, and the standard to which the performance must conform. These three elements are respectively defined as:

- a. a performance statement;
- b. a conditions statement; and
- c. a standard.

3. This chapter also details the training plan that is designed to assist cadets to achieve the required POs using EOs and Lesson Specifications (LS) that are the key reference used for development of A-CR-CCP-704/PF-001, *Gold Star Instructional Guides*.

ENABLING OBJECTIVES

4. EOs are a description of the cadet's ability after each unit of learning is complete and constitute a major step towards achieving the PO. EOs may correspond to the major components identified in the first round of deconstructing POs or they may result from grouping several related components. They are composed of three essential parts:

- a. a performance statement;
- b. a conditions statement; and
- c. a standard.

LESSON SPECIFICATIONS

5. LSs describe the instructional strategy to be applied to each EO, and include:

- a. supporting teaching points;
- b. references;
- c. learning activities (methods, media and environment);
- d. estimated timings;
- e. assessment directions; and
- f. any remarks that further clarify the design intent.

ASSESSMENT FOR LEARNING

6. Formative evaluation, or assessment for learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. These assessments can also provide cadets with opportunities to practice PCs. This helps to diagnose cadet needs, eg, corrective action or remedial instruction, plan the next steps in instruction and provide cadets with feedback they can use to improve. It also reinforces learning so that it can be retained longer. Details for Gold Star assessment for learning are outlined within the applicable lesson specifications located at Chapter 4.

11. Remarks:

- a. Expedition centres are required to select two dynamic modes of travel from EO M426.02a (Paddle a Canoe), EO M426.02b (Ride a Mountain Bike), EO M426.02c (Hike Along a Route), EO M426.02d (Snowshoe Along a Route) and EO M426.02e (Ski Along a Route) to incorporate into the expedition training.
- b. This EO has been allocated nine periods in the overall course period allocation. Each expedition centre may adjust this allocation to reflect the choice of activities, facilities and available resources at the expedition centre.
- c. Upon arrival at the expedition centre, cadets will be divided into teams. Cadets will be given an opportunity to navigate and lead peers. These teams will remain the same for the duration of the weekend.
- d. Total distance for the cross-country ski route may be adjusted depending on trail availability and skill level of participants.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
<p>CASE STUDY Cadets are given a written problem, situation or scenario, to which they respond either individually or as a group in order to achieve a performance objective. The problem situation or scenario should match the experience level of the cadets and they should be given enough time either before or during the instructional period to analyze it. Responses to the case should be recorded under four headings: Facts, Assumptions, Problems and Solutions</p>	<ol style="list-style-type: none"> 1. Learning principles, attitudes and concepts. 	<ol style="list-style-type: none"> 1. Effective application of teaching principles instead of "preaching". 2. Cadets can help each other learn. 3. High energy and perfect demonstrations. 4. Can be easily related to a real life situation in the past and for future applications. 	<ol style="list-style-type: none"> 1. Must be well organized and facilitated in order to ensure learning takes place.
<p>DEMONSTRATION AND PERFORMANCE Cadets observe the instructor performing the task in a demonstration, and rehearse it under the supervision of the instructor. A good example of this is drill instruction, where cadets are shown a movement and given the opportunity to practice and perform it.</p> <p>Demonstration Method A method of instruction where the instructor, by actually performing an operation or doing a job, shows the cadet what to do, how to do it and through explanations brings out why, where and when it is done.</p>	<p>Demonstration Method</p> <ol style="list-style-type: none"> 1. To teach manipulative hands-on operations or procedures. 2. To teach troubleshooting. 3. To illustrate principles. 4. To teach operation or functioning of equipment. 5. To teach teamwork. 6. To set standards of workmanship. 7. To teach safety procedures. 	<p>Demonstration Method</p> <ol style="list-style-type: none"> 1. Minimizes damage and waste. 2. Saves time. 3. Can be presented to large groups. 	<p>Demonstration Method</p> <ol style="list-style-type: none"> 1. Requires careful preparation and rehearsal. 2. Requires special classroom arrangements. 3. Requires equipment and aids.

<p>Performance Method A method in which the cadet is required to perform, under controlled conditions, the operations, skill or movement being taught.</p>	<p>Performance Method</p> <ol style="list-style-type: none"> 1. To teach manipulative hands-on operations or procedures. 2. To teach operations or functioning of equipment. 3. To teach team skills. 4. Promotes safety. 	<p>Performance Method</p> <ol style="list-style-type: none"> 1. Requires tools and equipment. 2. Requires large blocks of time. 3. Requires more instructors.
<p>EXPERIENTIAL LEARNING Learning in the cadet program is centred on experiential learning. This involves learning knowledge and skills from direct experience. People learn best from their own experiences and can then apply the knowledge and skills in new situations. The four stages of the cycle may be considered and applied to all activities within the Cadet Program, regardless of methodology chosen.</p> <p>Stage 1: Concrete Experience: Cadets have an experience and take time to identify and define what the experience is. Sample activities: direct observations, simulations, field trips, and reading.</p> <p>Stage 2: Reflective Observation: Cadets need to reflect on and examine what they saw, felt and thought while they were having the experience. Sample activities: discussion, journals / logs, and graphs.</p> <p>Stage 3: Abstract Conceptualization: Cadets work to understand and make connections from the experience to new or different situations. Sample activities: interview, discussion, model building, analogies and planning.</p>	<ol style="list-style-type: none"> 1. To teach practical skills. 2. To learn how to learn. 3. To teach transferable skills. 4. To teach the process or principle. 5. To teach problem solving. 	<ol style="list-style-type: none"> 1. Knowledge is shared and created by everyone. 2. Everyone is actively involved in the teaching – learning process. 3. Numerous resources are used. 4. Cadet based. 	<ol style="list-style-type: none"> 1. Many resources are required (may be expensive). 2. Needs a lot of planning, preparation and organization prior to activity. 3. The instructor must master the subject developed. 4. Instructor needs very good pedagogical skills. 5. May not be a good process for learning details.

<p>Stage 4: Active Experimentation: Cadets look ahead to and plan the application of skills and knowledge acquired to future experience. Sample activities include: simulation, fieldwork. Note: The cycle is ongoing as each learning experience builds on another.</p>			
<p>FIELD TRIP Theoretical knowledge is reinforced through participation in an activity in a real-life setting. Prior planning helps to ensure all pre-training and safety standards are met. Field trip activities are planned and carried out to achieve clear instructional objectives that are understood by the cadets. Examples can include trips to areas of local interest, flying / gliding, hiking or sailing.</p>	<ol style="list-style-type: none"> 1. Awareness of historical situations. 2. Can be used in conjunction with many other instructional methods. 3. To introduce / illustrate and confirm topics. 	<ol style="list-style-type: none"> 1. Immerse cadets in a specific environment. 	<ol style="list-style-type: none"> 1. May be difficult to control. 2. Needs much organization and preparation. 3. May have cost involved.
<p>GAME Games are used with one or more participants to practice skills, apply strategies and enhance teams. It is critical that the game supports learning through the provision of a challenging activity that allows for the skill practice or knowledge confirmation. Games are a fun and interesting way to introduce a topic, expand cadets' understanding knowledge of topic or review material.</p>	<ol style="list-style-type: none"> 1. Practical situations. 2. Discovery of concepts and principles. 3. Review and confirmation. 4. Games include rules and assessment. 	<ol style="list-style-type: none"> 1. Fun, interesting. 2. Creates ownership. 3. Highly participative. 4. Many resources involved. 	<ol style="list-style-type: none"> 1. May stratify the group by creating a winner and a loser. 2. May be difficult to providing instructor feedback.
<p>GROUP DISCUSSION Cadets discuss issues, share knowledge, opinions and feelings about a topic in small groups to a specific goal. The instructor's questioning is flexible and minimal, and aims at encouraging cadets to</p>	<ol style="list-style-type: none"> 1. To develop imaginative solutions to problems. 2. To stimulate thinking and interest and to secure cadet participation. 3. To emphasize main teaching points. 4. To supplement lectures. 	<ol style="list-style-type: none"> 1. Increases cadet interest. 2. Increases cadet acceptance and commitment. 	<ol style="list-style-type: none"> 1. Requires highly skilled instructors. 2. Required preparation by cadets. 3. Limits contents. 4. Consumes time. 5. Restricts size of group. 6. Requires selective group composition.

<p>explore their own experiences and opinions through peer interaction.</p>	<ol style="list-style-type: none"> 5. To determine how well cadets understand the concepts and principles. 6. To prepare cadets for application of theory or procedure. 7. To summarize, clarify points or review. 8. To prepare cadets for instruction that will follow. 9. To determine cadet progress and effectiveness of prior instruction. 	<ol style="list-style-type: none"> 3. Utilizes cadet knowledge and experience. 4. Results in more permanent learning because of the high degree of cadet participation / cognitive involvement. 	
<p>IN-CLASS ACTIVITY In-class activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce instructional topics or to introduce cadets to new experiences. In-class activities should provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. Examples of these activities include learning stations, videos, brainstorming / debating.</p>	<ol style="list-style-type: none"> 1. To reinforce instructional topics. 2. To orient cadets to the subject. 3. To introduce a subject. 4. To give direction on procedures. 5. To present basic material. 6. To introduce a demonstration, discussion or performance. 7. To illustrate the application of rules, principles or concepts. 8. To review, clarify, empathize or summarize. 	<ol style="list-style-type: none"> 1. To provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. 2. Permits flexibility with class size. 3. Requires less rigid space requirements. 4. Permits adaptability. 5. Permits versatility. 6. Permits better control over content and sequence. 	<ol style="list-style-type: none"> 1. Encourages cadet passiveness. 2. Difficult to gauge cadet reaction. 3. Takes time to prepare.
<p>INTERACTIVE LECTURE The instructor-driven methodology combines both lecture and interaction to meet lesson objectives. Lecture portions of the lesson are offset with relevant activities such as videos with discussion, games to confirm and completion of handouts.</p>	<ol style="list-style-type: none"> 1. To orient cadets to the subject. 2. To introduce a subject. 3. To give instruction on procedures. 4. To present basic material. 5. To illustrate the application of rules, principles or concepts. 6. To review, clarify, empathize or summarize. 	<ol style="list-style-type: none"> 1. Saves time. 2. Permits flexibility of class size. 3. Requires less rigid space requirements. 4. Permits adaptability. 5. Permits versatility. 6. Permits better control over content and sequence. 	<ol style="list-style-type: none"> 1. Involves one-way communication. 2. Poses problems in skill teaching. 3. Encourages passive behaviour. 4. Difficult to gauge cadet reaction. 5. Requires highly skilled instructors. 6. Requires a high level of concentration from the cadets.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
<p>LECTURE This is a formal or semi-formal discourse in which the instructor presents a series of events, facts, principles, explores a problem or explains relationships.</p>	<ol style="list-style-type: none"> 1. To orient cadets to the subject. 2. To introduce a subject. 3. To give instruction on procedures. 4. To present basic material. 5. To illustrate the application of rules, principles or concepts. 6. To review, clarify, empathize or summarize. 	<ol style="list-style-type: none"> 1. Proficient oral skills are required. 2. Useful for big groups. 3. Saves time because of fewer interruptions. 	<ol style="list-style-type: none"> 1. Should have a clear introduction and conclusion. 2. Cadets may be passive and uninvolved.
<p>PRACTICAL ACTIVITY Practical activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce and practice instructional topics or to introduce cadets to new experiences. Practical activities should stimulate interest among cadets and encourage their participation, while maintaining relevance to the performance objectives.</p>	<ol style="list-style-type: none"> 1. Review. 2. In practical situations such as leadership development, parade appointments, etc. 3. To introduce a subject. 	<ol style="list-style-type: none"> 1. Encourage participation by cadets. 2. Stimulate interest in the subject. 3. Maintain relevance to the performance objectives. 4. Fun and interesting. 5. Creates ownership. 6. Highly participative in small groups. 7. Many resources involved. 	<ol style="list-style-type: none"> 1. Extensive supervision is required to ensure proper content is covered. 2. Takes time to prepare. 3. Not suitable for large groups.
<p>PROBLEM-BASED LEARNING Cadets analyse a problem, apply the steps in the problem solving method and work toward solving the problem in small groups. Problem-based learning requires cadets to participate and interact with each other while developing critical thinking skills. Instructors choose problem that stimulate thought, reinforce learning and relate to the cadets' interest and needs. Throughout the exercise, instructors pose thought-provoking questions and guide cadets without influencing their decisions.</p>	<ol style="list-style-type: none"> 1. Review. 2. In practical situations such as leadership development, parade appointments, etc. 	<ol style="list-style-type: none"> 1. Encourage participation by cadets. 2. Stimulate interest in the subject. 3. Maintain relevance to the performance objectives. 4. Many resources involved. 	<ol style="list-style-type: none"> 1. Critical thinking skills are required. 2. Broad knowledge of the subject matter is required.

<p>ROLE PLAY Cadets are assigned roles requiring them to interact with others in responding to various realistic situations. The instructor identifies the purpose of the role-play, provides the cadets with enough background information to help them accurately play their assigned role, and motivates them to become more fully involved in the activity. De-brief after the role-play is essential to connect the activity with the PO / EO.</p>	<ol style="list-style-type: none">1. Skills associated with social systems or human interactions; practical situations eg. Positive Social Relations for Youth, discipline issues, behaviour on the range, leadership, instructional techniques.2. Attitudinal objectives.	<ol style="list-style-type: none">1. High participation, interactive delivery and may lead to discussions.2. Experience is developed in a supportive environment.3. Can be very versatile depending on application eg, introduce a topic, mid-stage learning or as confirmation.	<ol style="list-style-type: none">1. Participants can be easily sidetracked, need for good preparation and controls must be set appropriately.2. Competence, experience and prepared instructors required.
